PROJECT FORWARDING

Project forwarding is a specialist job and we have a dedicated team for executing complex movement of equipment, machinery, assembly lines, aircrafts, parts and liquids. Our knowledge and planning is instrumental in successful project execution over the last 30 years.

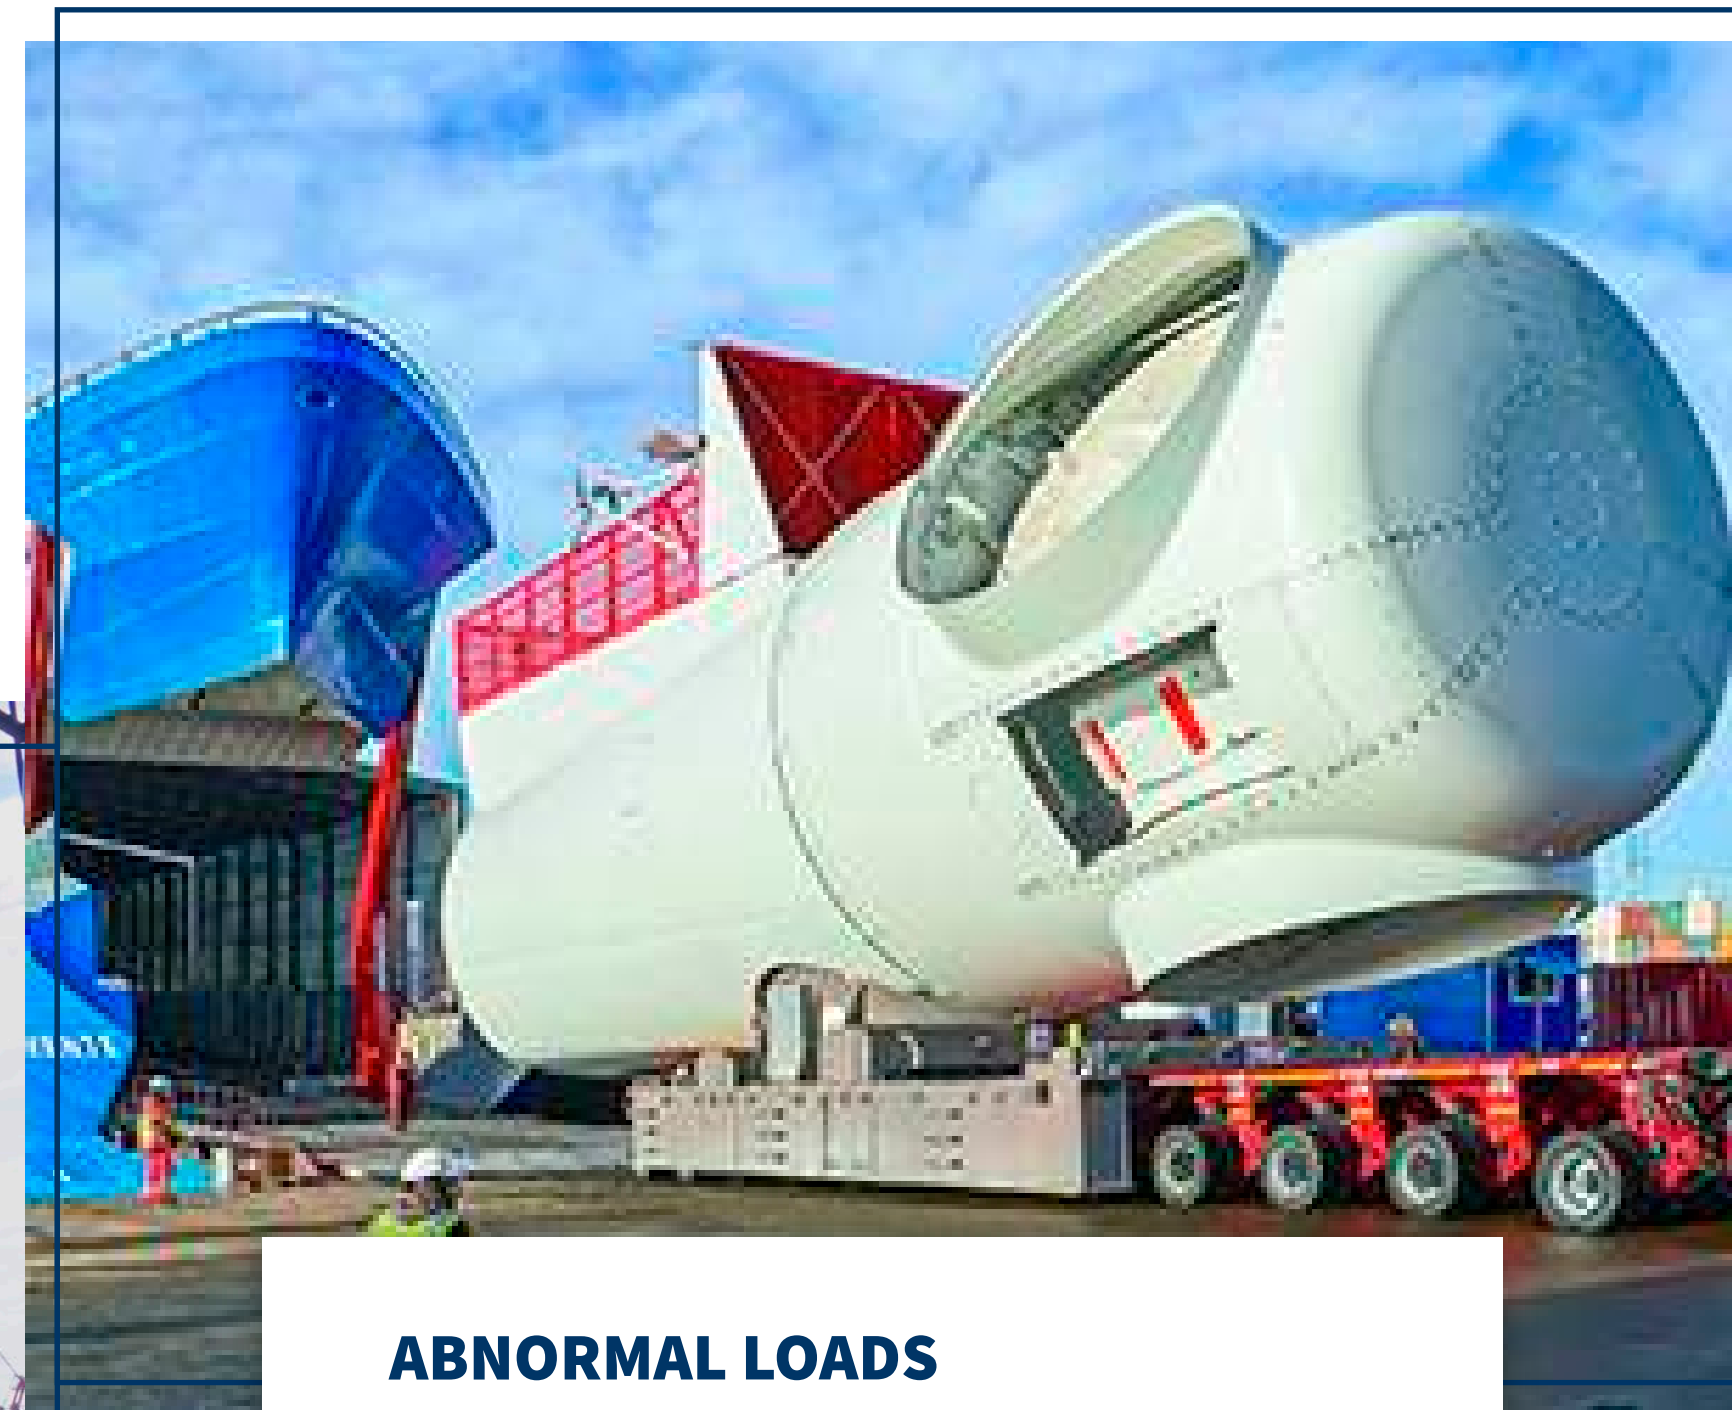

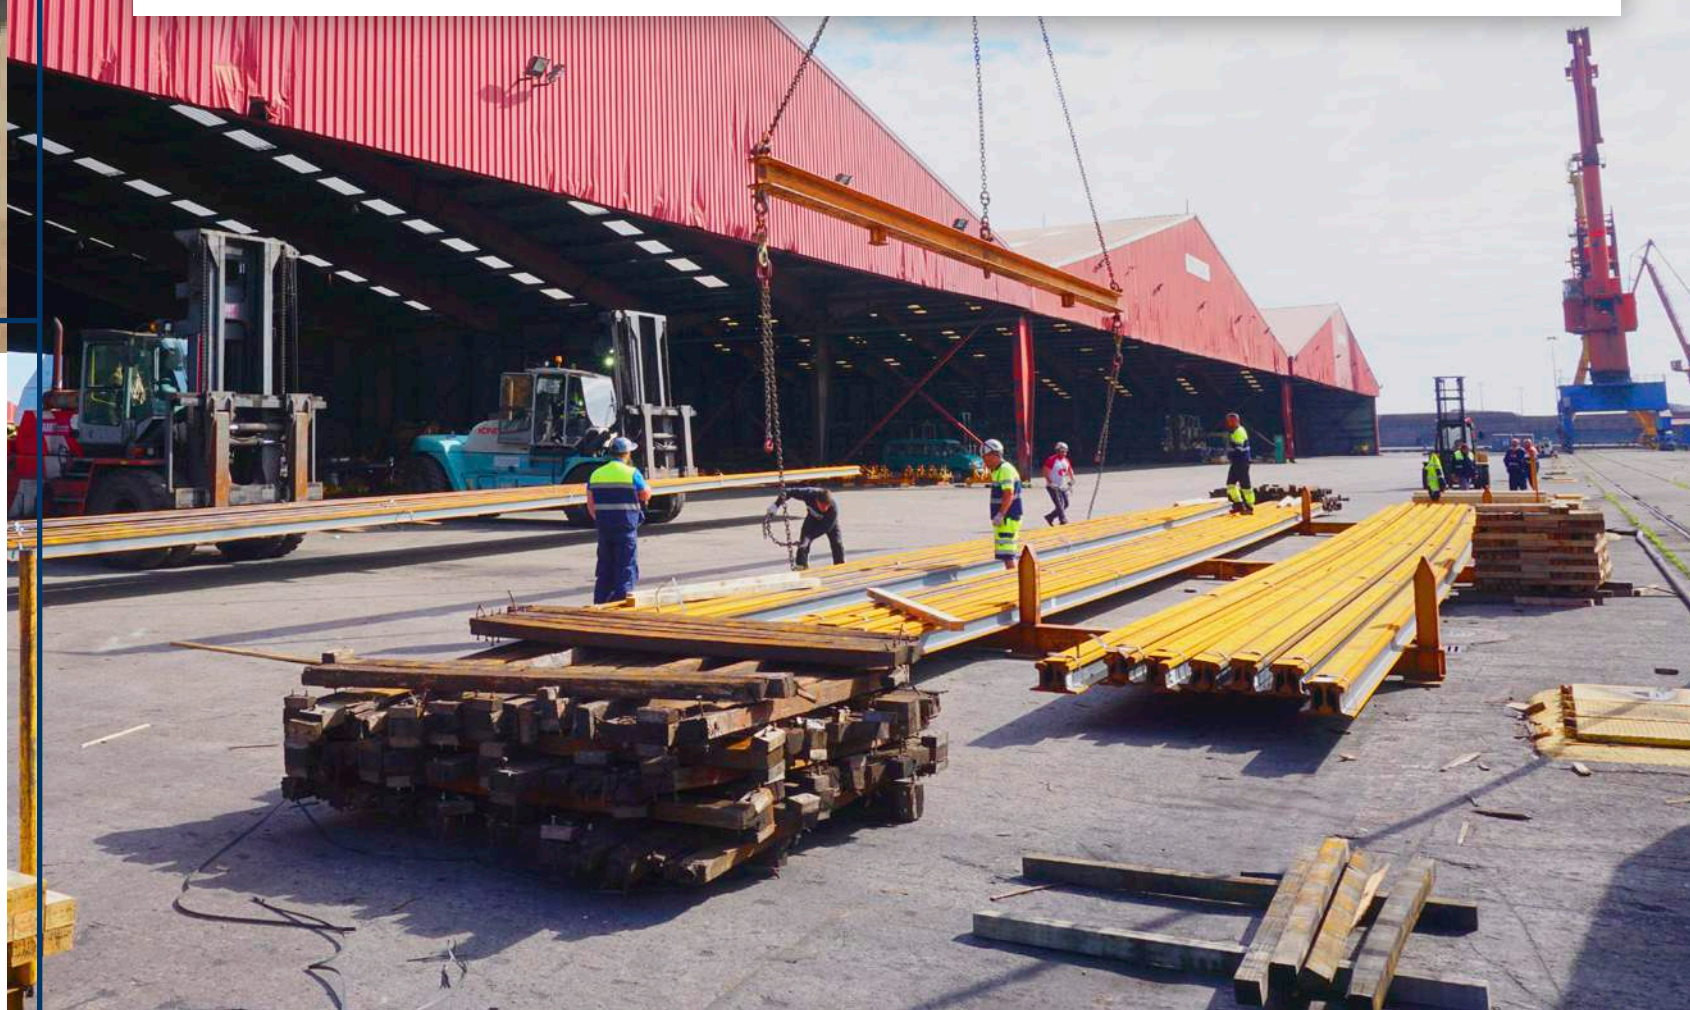

We execute **heavy lifts** and **abnormal loads** for setting up energy production sites, manufacturing units and with special emphasis on exhibitions and events. We can also assist in complete relocation of manufacturing plants, power plants and assembly lines.

HEAVY LIFTS

We are specialists for heavy lifts rests on its ability to undertake challenging assignments executed by a team of experienced and dedicated professional team. Our strength lies in decades of experience serving the toughest lifts requiring intricate planning, coordination and execution at the highest level of safety.

We debunk the one-solution fits all approach and look at each assignment with the lens of our established processes to devise a solution unique to each requirement.

We participated in many prestigious projects in the region and we are called upon repeatedly by our existing customers and their referrals.

ABNORMAL LOADS

We can transport abnormal and indivisible loads. The management and delivery of such services require an understanding of multi-modal transportation, global customs brokerage, regional regulations, and labour force.

Our special focus is on the aviation sector and the transport of helicopters and small aircrafts. We can take care of oversized loads with great flexibility and expertise.
